SNEF Project Outcomes – Senior Registrar Leave

Background

During bargaining in November 2020, access to leave and leave cover for Senior Registrars was identified as a priority area requiring further review. It was noted that Senior Registrars are often required to swap their on call /after-hours shifts in order to take leave as it is difficult to provide a reliever due to the level and nature of their work.

A project was established to understand how leave is accessed and covered for RMOs and to develop recommendations to support a consistent and transparent approach enabling access to, and management of leave for this group.

As an outcome from this project a guide for Registrars who take on the roster writing and leave management role was developed. This included updates to the RMO roster and relief review and improvement framework to capture some of the challenges for services without relief roles and to include best practice guidelines and relief models to mitigate some of these challenges.

Purpose of the Roster Writing and Leave Management Guide for Registrars

The guide has been developed to ensure Registrars in the roster writing and leave management role have access to the required resources and that there are appropriate processes in place to support and maximise leave access. The guide may also be useful for induction of new RMO unit staff or other staff who take on the roster writing and leave management role within the service.

The guide and updated RMO roster and relief review and improvement framework were released nationally on 19 July 2022. This included recommendations around next steps for Districts.
